

Fortinet(R) Named to Deloitte Technology Fast 500(TM) for Sixth Consecutive Year

Deloitte Based Rankings on Growth From 2006 to 2010

SUNNYVALE, CA -- (MARKET WIRE) -- 10/20/11 -- Fortinet® (NASDAQ: FTNT) -- a leading network security provider and worldwide leader of unified threat management (UTM) solutions -- today announced that it has been named to Deloitte's Technology Fast 500™ for the sixth consecutive year. Deloitte's Technology Fast 500 ranks 500 of the fastest growing technology, media, telecommunications, life sciences and clean technology companies in North America. Rankings are based on percentage of fiscal year revenue growth during the period from 2006-2010.

In order to be eligible for Technology Fast 500 recognition, companies must own proprietary intellectual property or technology that is sold to customers in products that contribute to a majority of the company's operating revenues. Companies must have base-year operating revenues of at least \$50,000 USD or CD, and current-year operating revenues of at least \$5 million USD or CD. Additionally, companies must be in business for a minimum of five years and be headquartered within North America.

"Fortinet continues to drive innovation in the industry through our market-leading FortiGate unified threat management appliances which improve security and reduce cost and complexity for companies of all sizes," said Ken Xie, Fortinet founder, president and CEO. "We are pleased to be included again in this year's Technology Fast 500."

Fortinet's FortiGate appliances provide a high-performance, consolidated array of security and networking functions including complete content protection against network, content, and application-level threats without degrading network availability and uptime. All FortiGate systems are ASIC-accelerated security appliances that integrate core security and network functionalities including firewall, SSL and IPsec VPN, antivirus, intrusion prevention, Web filtering, antispam, application control, data loss prevention, SSL traffic inspection and WAN optimization. FortiGate's unique approach combines custom FortiASIC™ processors with latest generation general CPUs to minimize packet processing while accurately scanning the data for threats. Custom FortiASIC processors enable organizations to detect malicious content- and connection-based threats at multi-Gigabit speeds.

The Deloitte Technology Fast 500 ranking is compiled from nominations submitted directly to the Technology Fast 500 Website, and public company database research.

About Fortinet (www.fortinet.com)

Fortinet (NASDAQ: FTNT) is a worldwide provider of network security appliances and the market leader in unified threat management (UTM). Our products and subscription services provide broad, integrated and high-performance protection against dynamic security threats while simplifying the IT security infrastructure. Our customers include enterprises, service providers and government entities worldwide, including the majority of the 2011 Fortune Global 100. Fortinet's flagship FortiGate product delivers ASIC-accelerated performance and integrates multiple layers of security designed to help protect against application and network threats. Fortinet's broad product line goes beyond UTM to help secure the extended enterprise -- from endpoints, to the perimeter and the core, including databases and applications. Fortinet is headquartered in Sunnyvale, Calif., with offices around the world.
