Notes

- With respect to Fortinet's guidance for Q2 2017 and full year 2017, Fortinet has not reconciled its guidance with respect to non-GAAP gross margin to GAAP gross margin, non-GAAP operating margin to GAAP operating margin, and non-GAAP earnings per share to GAAP earnings per share because certain items such as stock-based compensation, business acquisition-related charges, impairment and amortization of intangible assets, litigation settlement expenses, and restructuring charges are out of Fortinet's control or cannot be reasonably predicted. Accordingly, reconciliation is not available without unreasonable effort.
- Billings is a non-GAAP measure that we define as revenue recognized for the particular period plus the change in deferred revenue from the beginning to the end of the period, less any deferred revenue balances acquired from business combination(s) during the period.
- Does not include stock-based compensation, business acquisition-related charges including inventory fair value adjustment amortization and other purchase price accounting adjustments, impairment and amortization of intangible assets, litigation settlement expenses, and restructuring charges.
- (4) Assumes effective tax rate of 32% for 2017.
