November 1, 2018

Safe Harbor Statement

Information, statements and projections contained in these presentation slides and related conference call concerning Fortinet's business outlook, the Q4 and 2018 guidance, and future prospects and expectations are forward-looking statements that involve risks and uncertainties. These forward-looking statements include statements regarding our position for future growth, position to provide our customers the best network security, ability to continue to grow our market position and address our market opportunity, and guidance and future financial results. Although we attempt to be accurate in making forward-looking statements, it is possible that future circumstances might differ from the assumptions on which such statements are based such that actual results are materially different from our forward-looking statements in this release. Important factors that could cause results to differ materially from the statements herein include the following: general economic risks; global economic conditions, country-specific economic conditions, and foreign currency risks; competitiveness in the security market; the dynamic nature of the security market and its product and services; specific economic risks worldwide and in different geographies, and among different customer segments; uncertainty regarding increased business and renewals from existing customers; uncertainties around continued success in sales growth and market share gains; longer sales cycles, particularly for larger enterprise, service providers, government and other large organization customers; failure to convert sales pipeline into final sales; risks associated with successful implementation of multiple integrated software products and other product functionality risks; sales and marketing execution risks; execution risks around new product development and introductions and innovation; litigation and disputes and the potential cost, distraction and damage to sales and reputation caused thereby or by other factors; market acceptance of new products and services; the ability to attract and retain personnel; changes in strategy; risks associated with management of growth; lengthy sales and implementation cycles, particularly in larger organizations; technological changes that make our products and services less competitive; risks associated with the adoption of, and demand for, our products and services in general and by specific customer segments; competition and pricing pressure; risks related to integrating acquisitions; and the other risk factors set forth from time to time in our most recent Annual Report on Form 10-K, our most recent Quarterly Report on Form 10-Q and our other filings with the Securities and Exchange Commission (SEC), copies of which are available free of charge at the SEC's website at www.sec.gov or upon request from our investor relations department. All forward-looking statements herein reflect our opinions only as of the date of this release, and we undertake no obligation, and expressly disclaim any obligation, to update forward-looking statements herein in light of new information or future events

Notes

- (1) Guidance for non-GAAP financial measures excludes stock-based compensation and amortization of acquired intangible assets. We have not reconciled our guidance with respect to non-GAAP financial measures to the corresponding GAAP measures because certain items that impact these measures are uncertain or out of our control, or cannot be reasonably predicted. Accordingly, a reconciliation of these non-GAAP financial measures to the corresponding GAAP measures is not available without unreasonable effort.
- (2) Billings is a non-GAAP measure that we define as revenue recognized for the particular period plus the change in deferred revenue from the beginning to the end of the period and adjustment to the deferred revenue balance due to adoption of the new revenue recognition standard, less any deferred revenue balances acquired from business combination(s) during the period.
- (3) Does not include stock-based compensation, business acquisition-related charges including inventory fair value adjustment amortization and other purchase price accounting adjustments, impairment and amortization of intangible assets, litigation settlement expenses, and restructuring charges.
- (4) Does not include the gain on sale of investment in a privately-held company and assumes effective tax rate of 24% for 2018.
- (5) Operating margin guidance includes a total benefit associated with the adoption of ASC 606 of approximately 250 basis points for Q4'18 and 300 basis points for FY 2018.

The image features the Fortinet logo in white, centered on a dark red background. The logo consists of the word "FORTINET" in a bold, sans-serif font, with a registered trademark symbol (®) to its right. The background is decorated with a pattern of light red, semi-transparent hexagons and lines, creating a technical or network-like aesthetic. The hexagons are of various sizes and are arranged in a way that suggests a network or data flow. The overall composition is clean and modern, typical of a corporate branding element.
